Abstract
The Findex database provides indicators on topics such as account ownership, payments, saving, credit, and financial resilience. Findex data is reported for all indicators by country, region, and income group. Data is also included summarized by Gender, Income (adults living in the richest 60% and poorest 40% of households), Labor Force Participation (adults in and out of the workforce), Age (young and older adults), and Rural and Urban residence. Available indicators are reported for 2024, 2021, 2017, 2014, and 2011.

For further details, please refer to https://www.worldbank.org/en/publication/globalfindex/report
